The Indiana Impact data researched by the Polis Center provides the following information between a baseline year (often 2009) and the latest available (as of this report, usually 2016 or 2017, depending on when the data is made available by the source).

Are We Getting Better?		Is Indiana Getting Better?		Rank in Indiana?*	How Do We Compare?
% Change Between Years		% Change Between Years		Most Recent Year	Most Recent Year
Baseline	Most Recent	Baseline	Most Recent	1 = Highest	% Difference From State

Clicking the Full View provides considerably more information than the Executive Summary. By clicking the plus sign, you can see the underlying data, trend lines, the original source of the data, and often a color-coded map by township or even census tract.

The Polis Center conducts this research in cooperation with Indiana United Ways (of which United Way of Monroe County is a certified member) and the United Way of Central Indiana.

Current data for Monroe County link is available at <http://m.indianaimpact.org/MonroeCounty>
