

2022-2023 Education Adventure Grants

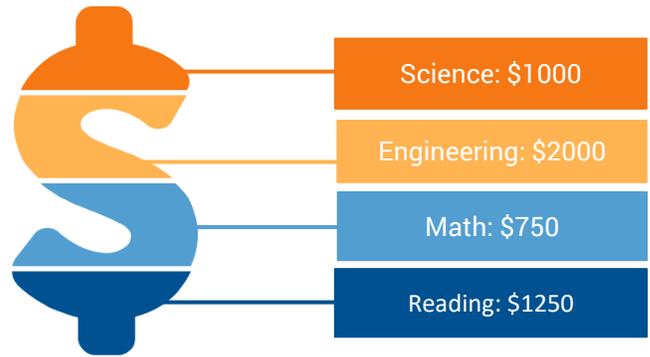

Education Mini-Grants are limited, one-time education-based grants made to community educators for the purchase of additional learning tools and resources, aimed at enhancing student engagement and not funded by school budgets. United Way funded eleven projects in two rural school districts from elementary through high school during the 2022-2023 school year.

1,143+ Students Impacted

Third grade students learn reading skills in an exciting way with GLOW kits.

**Total Amount Granted
\$5,000**

Katelyn Myers- Agricultural Awareness in Middle School

"Students have demonstrated an increase in genuine curiosity and involvement. They are asking questions, volunteering, and exhibiting more self-direction. Students want to know how the fish and plants are doing, what the water quality levels are like, and how they can help!"

Middle school students working to maintain and cultivate their class's aquaponics system.

100%

Project will benefit future students

82%

Project increased student engagement

73%

Project increased comprehension

Anna Wall- GLOW Crazy for Reading in Third Grade!

"Many students had become bored with quiet reading. This project had students asking for quiet flashlight reading time! The students loved reading with flashlights and using the cushions and mats on the hard floor."
